

TEST PRACTICE GREENHEALTH - HEALTHCARE FACILITY WITH BEDS AND ORS #3 — no.1707362

Partner for Change - 2016: Chemicals

Introduction

Chemical minimization programs are an extremely important part of any sustainability program. The use of certain chemical constituents in products and materials can have significant health repercussions for building occupants, patients, staff, and the community. Please use this section of the application to highlight how the facility has begun to address the use and minimization/elimination of certain chemicals of concern.

Policy

<u>1.</u>	Does ti C Yes C No	ne facility contract for, or perform internally, a hazardous chemical/material audit by hospital department and update at least annually?
<u>2.</u>		ne facility have chemical or purchasing policies that identify and avoid specific <u>chemicals of concern</u> contained in products that may ardous to human health and the environment?
	<u>2.a</u>	Please attach:
		Multiple policies can be attached via zip file , if necessary.
	<u>2.b</u>	Please check all chemical constituents included in the policy.
		(Please note that non-chemical constituents, such as water, energy, and packaging are evaluated in the EPP portion of this application.)
		 Bisphenol A and its structural analogues CA Proposition 65 listed chemicals (e.g.,Carcinogens, mutagens, reproductive toxicants) Flame retardants, including chlorinated, brominated, and phosphate-based flame retardants Formaldehyde Latex Lead Mercury Persistent, Bioaccumulative, and Toxic substances (PBTs) Perfluorinated compounds

Phthalates (DEHP,	BBP,	DnHP,	DIDP,	DBP,	DINP,	and DiBP)
--------------	-------	------	-------	-------	------	-------	-----------

- □ Polystyrene
- Polyvinyl chloride, or PVC
- 🗆 Triclocarban
- Triclosan
- \Box Volatile organic compounds (VOCs)
- Other prioritized chemical constituents

<u>2.b.a</u>	Other prioritized chemical constituent:
<u>2.b.b</u>	Other prioritized chemical constituent:
<u>2.b.c</u>	Other prioritized chemical constituent:

<u>3.</u>	Has the facility developed a fragrance-free policy for staff?
	© Yes
	C No

<u>3.a</u> Please attach policy:

Green Cleaning

4. Has the facility conducted an inventory of all products used at the facility for cleaning and disinfection of surfaces?

Yes

O No

Conducting an inventory can identify where the hospital may be using multiple products for the same purpose in different areas of the institution. Standardization of cleaning and disinfection products can lower costs and improve training effectiveness and safety.

5. Does the facility utilize any Green Seal or UL ECOLOGO-certified cleaning products?

Yes

NEW in 2016 Please document **ALL** dollars spent on cleaning chemicals at your organization during 2015. For each type of cleaning product your organization selects below, a table will appear in which you need to enter **two numbers**--a value for green chemical spend and a value for conventional chemical spend on that particular product category. The table will **autocalculate** your total cleaning chemical spend and your % green spend for that category. If you are using 100% green certified chemicals for a product category, you **MUST** enter a zero for conventional cleaning chemicals in the table. If you are using 100% conventional cleaning chemicals for a product category, you **MUST** enter a zero for green

- **<u>5.a</u>** Please select all cleaning products being used at the organization:
 - General purpose (hard surface) cleaners
 - ☑ Window/glass cleaners
 - Carpet and upholstery cleaners
 - I Bathroom/restroom cleaner
 - Floor cleaners
 - Floor strippers
 - Floor finishes
 - ✓ Laundry soaps/cleaners
 - ☑ Liquid and foam handsoap
 - Other

General Purpose Cleaners

Procurement type	\$ spent on green cleaning chemicals	•	Total (\$) Spent on Cleaning Products	% Green spend of total
General purpose cleaning chemicals			0	0

Window/Glass Cleaners

Procurement type	\$ spent on green cleaning chemicals	\$ spent on conventional cleaners	Total (\$) Spent on Cleaning Products	% Green spend of total
Window/glass cleaners			0	0

Carpet and Upholstery Cleaners

Procurement type	\$ spent on green cleaning chemicals	\$ spent on conventional cleaners	Total (\$) Spent on Cleaning Products	% Green spend of total
Carpet cleaners			0	0

Bathroom/restroom

Procurement type	\$ spent on green cleaning chemicals	\$ spent on conventional cleaners	Total (\$) Spent on Cleaning Products	% Green spend of total
Bathroom/restroom cleaners			0	0

Floor Cleaners

Procurement type	\$ spent on green cleaning chemicals	\$ spent on conventional cleaners	Total (\$) Spent on Cleaning Products	% Green spend of total
Floor cleaners			0	0

Floor Strippers

Procurement type	\$ spent on green cleaning chemicals	\$ spent on conventional cleaners	Total (\$) Spent on Cleaning Products	% Green spend of total

loor strippers		0	0

Total

	Total \$ spent on green cleaning chemicals	Total \$ spent on conventional cleaners	Total (\$) Spent on all Cleaning Products	% Green spend of total
Total Spend	0	0	0	0

6. Has the facility, in collaboration with the Infection Prevention & Control Committee, instituted a policy and/or implementation plan that addresses environmentally preferable cleaning and addresses cleaning/ disinfection of major surfaces (as outlined in the Green Seal Certification Checklist, <u>Standard GS-42</u>)?

O Yes

O No

No points will be received for this question unless the policy or plan is attached. Policy/plan must specifically reference environmentally preferable or green cleaning practices.

6.a Please attach:

<u>7.</u>	Has your organization committed to the Green Cleaning Goal of the Safer Chemicals Challenge of the Healthier Hospitals program?

O No

<u>7.a</u> Please describe progress toward this goal:

<u>8.</u> Has the facility inventoried its use of antimicrobial hand soaps?
 G Yes

O No

9. Has the facility eliminated the purchase and use of antimicrobial hand soaps in non-clinical areas?

G Yes○ No	
<u>9.a</u>	Is this encoded in an organizational policy? • Yes • No
	<u>9.a.a</u> Please attach:

10. Has the facility eliminated the purchase and use of antimicrobial hand soaps that contain triclosan or triclocarban?

Yes

O No

10.a.a Please attach:

<u>11.</u>	Has Environmental Services collaborated with the Infection Control Committee to identify areas where use of disinfectants can safely be
	minimized or eliminated?

- Yes
- ⊂ No
- 12. Does the facility utilize ultraviolet germicidal irradiation (UVGI) technology for surface disinfection in any area of the organization?
 - Yes
 - ⊖ No

12.a Please select the clinical areas where this technology is used:

- Patient rooms
- Isolation rooms
- □ OR
- Other
 - **12.a.a** What other areas is this technology used in:

<u>13.</u> Does the facility use vacuums certified by the Carpet and Rug Institute's <u>Seal of Approval/Green Label</u> program for commercial vacuums?
 • Yes

O No

14. Does the facility utilize automatic scrubbing machines that use only water for floor cleaning?

- Yes
- ⊂ No

14.a Was your facility able to reduce or replace other cleaning chemical use as a result of this equipment?

- Yes
- O No

14.a.a Please describe:

15. Does the facility utilize **microfiber mops and cleaning cloths** as a mechanism to reduce water and chemical use, reduce cross contamination and ergonomic stress?

- C Yes
- O No

Sterilization and Disinfection

16. Does the facility utilize medical instrument cleaners that are certified by <u>EPA's Safer Choice Program</u> (formerly Design for the Environment-DfE)?

C Yes

O No

While GreenSeal and UL ECOLOGO are the preferred certifications for surface cleaning chemicals, cleaning of medical instrumentation is not covered by these certification programs. EPA's Safer Choice program certifies medical instrument cleaners.

17. Has the facility eliminated the use of the high-level disinfectant **glutaraldehyde** and moved to safer alternatives (as defined by the ICRA process involving Infection Prevention & Control and Employee Health)?

Yes

⊂ No

An Infection Control Risk Assessment (ICRA) is a multidisciplinary, organizational, documented process that after considering the facility's patient population and program The ICRA process focuses on reduction of risk from infection, acts through phases of facility planning, design, construction, renovation, facility maintenance, and coordinates and weighs knowledge about infection, infectious agents, and care environment, permitting the organization to anticipate potential impact.

COPA (ASP Cidex OPA, Metrex Metricide OPA)

T Hydrogen peroxide

Other

17.a.a Please describe other alternatives being utilized:

18. In the product evaluation/value analysis process, does the facility seek to avoid products where disinfection with glutaraldehyde is required by manufacturer warranty?

Yes

O No

Has the facility eliminated the use of the sterilant ethylene oxide (EtO) onsite while maintaining compliance with regulatory requirements?
 Yes

• res

⊂ No

19.a What alternatives are used?

Steam Sterilization

Core plasma (3M Optreoz with TSO3 Sterizone technology)

□ Low temperature hydrogen peroxide gas plasma (Sterrad)

Peracetic Acid (Steris 1 or 1E)

Other

20. In the product evaluation/value analysis process, does the facility seek to avoid products where disinfection with ethylene oxide (EtO) is

required by manufacturer warranty?
Yes
⊂ No

<u>21.</u>	Has the facility purchased automatic machine washers/disinfectors to replace manual high-level disinfection to minimize staff exposure to
	liquid high-level disinfectants?

Yes

 $\bigcirc \mathsf{No}$

Integrated Pest Management (IPM)

	Integrated Pest Management (IPM) is an approach to managing pests that protects health and the environment. Learn more at: IPM Frequently Asked Questions		
<u>22.</u>	Has the facility reduced or eliminated the use of chemical pesticides by implementing an IPM program? • Yes • No		
<u>23.</u>	Has the facility developed a written IPM plan/policy for the facility that includes attention to both indoor and outdoor (buildings and grounds) pest habitats and issues? • Yes		
	© No In order to receive points for this question, policy/plan must be attached, and MUST contain language specifically related to IPM program implementation.		
<u>24.</u>	Has the facility designated an IPM coordinator to oversee pest management?		
DEHI	P and PVC		
<u>25.</u>	Does the facility have a <u>DEHP/PVC</u> reduction program? • Yes		
	C No		
	25.a Please describe:		

<u>25.b</u>	Is the con	nmitment to reduce the purchase of medical supplies made with DEHP and PVC encoded in a written policy or plan?
	<u>25.b.a</u>	Please attach policy or plan:
		Note: No points will be given for this question unless policy or plan is attached.
<u>25.c</u>	Has your program?	organization committed to the DEHP and PVC Reduction Goal of the Safer Chemicals Challenge of the Healthier Hosp
	G YesC No	
	<u>25.c.a</u>	Please describe progress toward this goal:

<u>28.a</u>	Has your facility achieved a DEHP -free NICU?
	Yes

28.a.a Please describe:

If you have answered Yes to a number of these questions and would like to apply for **Practice's Greenhealth's <u>PVC</u>- and <u>DEHP</u>-Free Award, please click on the <u>DEHP</u>-free icon on the far right of he menu bar. The <u>PVC</u> and <u>DEHP</u>-Free Award is a competitive award, with only one winner. Scoring is structured to not discriminate against smaller hospitals. This award generously made possible by B. Braun Medical Inc.**, a company committed to supplying solution containers not made with natural rubber latex, <u>DEHP</u> or <u>PVC</u>.

Healthy Interiors

<u>29.</u>	Does the facility purchase paints, adhesives and sealants that are low or no VOC ? • Yes • No		
<u>30.</u>	Does the facility require furniture to meet an environmental standard/certification or obtain LEED HC credit? Yes		
	<u>30.a</u>	Choose all the Multiple Attribute certifications that apply: I BIFMA level Cradle to Cradle SMaRT Other	
		<u>30.a.a</u>	Please describe which other Multiple Attribute certifications the facility is using:
	<u>30.b</u>	☐ Greengu ☐ Forest S ☐ Californi ☐ Energy ☐ RoHS (I	I the Single Attribute certifications that apply: uard Gold (VOCs only) Stewardship Council (wood only) ia Section 01350 (VOCs only) Star hazardous substances only) door Advantage Gold (VOCs only)

- ANSI/BIFMA X7.1 (VOCs only)
- □ GOTS (textiles only)
- □ Global Recycled Standard (textiles only)
- C Other

<u>30.b.a</u> Please describe which other Single Attribute certifications the facility is using:

<u>31.</u>	Does the facility refurbish or reupholster furniture for reuse?			
	Yes			
	C No			

32. Does your facility purchase flame retardant-free furniture where code permits?

C Yes

O No

33. Is your facility working to achieve the <u>Healthy Interiors Challenge</u> of the Healthier Hospitals program?

C Yes

O No

33.a Please describe progress toward this goal:

Please report dollars spent on furnishings and furniture **that eliminate the use** of the following target chemicals: flame retardants, formaldehyde, perfluorinated compounds, <u>PVC</u> (vinyl) and antimicrobials. Please also include the **total dollars spent on** <u>ALL</u> furnishings and furniture to determine % **Spend on Healthy Interiors** in Table C below.

Furnishings and furniture include surfaces (tables, desks, etc.), built-in and modular casework, seating (chairs, stools, sofas, benches, etc.), systems (walled desks with seating), beds (including mattresses), cubicle curtains, window coverings, panels and partitions, storage (cabinets, filing cabinets, dressers, drawers), and shelving (bookshelves, built-in shelves, etc.).

Table C. Healthier Interiors

Healthy Interiors % Spend	Dollars (\$) Spent
Dollars spent on furnishings and furniture that eliminate target chemicals	<u>34.</u>
Dollars spent on ALL non-medical furniture and medical furnishings	<u>35.</u>
% Total spend on furnishings and furniture that eliminate target chemicals of	<u>36.</u>
concern	0

37. Is 30% of total spend on furnishings and furniture free of the target chemicals of concern?

Yes

O No

Mercury

38. Has the facility won the Making Medicine Mercury Free Award (MMMF)?

⊂ Yes

No

The following questions must be answered in order to show that mercury has been addressed at some level at the facility to be considered for the Partner for Change Award. However, this is NOT the MMMF Award application. To apply for MMMF, click here: <u>Making Medicine</u> <u>Mercury Free</u>

Note to Applicants: all requested policies in this section must be attached.

 Has the facility established a mercury-free purchasing policy (a stand-alone policy or included in a broader policy with other
constituents of concern)?
© Yes
O No

38.b.a Please attach:

<u>38.c</u> Has the facility established protocols and written procedures for safe handling of any mercury remaining onsite?
 Yes

O No

38.c.a Please attach:

<u>38.d</u> Has the facility included proper mercury disposal language in demolition contract templates?

- Yes
- ⊖ No

38.d.a Please attach language:

38.e Has the facility included mercury-free language in building and renovation contract templates?

Yes

 \bigcirc No

<u>38.e.a</u> Please attach language:

<u>38.f</u>	Has the facility inventoried (and labelled where possible) all mercury devices/sources within the organization and have a plan in place to substitute non-mercury devices?		
	Yes		
	⊖ No		
	<u>38.f.a</u>	Please attach inventory:	
.g		acility replaced all clinical thermometers with mercury-free patient thermometers?	
	Yes
