

TEST PRACTICE GREENHEALTH - HEALTHCARE FACILITY
WITH BEDS AND ORS — no.1681969

Partner Recognition - 2016: Green Building

Green Design and Construction

The built environment plays an important role in both the promotion of healing in patients and the health of building occupants. Hospitals understand that a high performance healing environment can make a substantive difference in their ability to provide high quality care as well as their ability to attract and retain outstanding employees. Please highlight your facility's accomplishments and strategies relative to Green Design, Renovation & Construction.

1. Has the facility designed and built any projects (>1000 sq ft) in the last five (5) years?

- Yes
 No
-

1.a Have the projects incorporated any green design elements or achieved a green building certification standard such as LEED?

- Yes
 No
-

1.a.a Please describe project(s) and any green design elements incorporated:

2. Has the organization integrated any green/sustainable aspects into **Master Specifications** for all new buildings/renovations?

Yes

3. Has the organization implemented a **facility policy or commitment** to design and construct all new buildings and/or major renovations to **LEED** (or another green building) design standard?

- Yes
 No
-

4. Has the facility installed a **green or living roof or wall**?

- Yes

No

5. Has the facility consciously selected flooring, wall coverings, paints, materials, finishes, furniture or exterior materials that avoid **chemicals of concern**?

Yes

Construction & Demolition Debris

6. Does the facility recycle any of your construction and demolition debris from construction/renovation projects over 1000 sq ft?

- Yes
 No

Please enter your construction and demolition debris data in the table below. Please only include CDD waste from projects over 1000 square feet (per USGBC guidelines for major renovations). Every day C&D waste from routine renovation projects less than 1000 square feet can be included in **recycling** data in the Waste section of the application.

Table A. Construction & Demolition Debris

Construction & Demolition Debris	TONS per Year Current	Annual Costs Current	% of Total Tonnage
Disposed as Solid Waste	<input type="text"/>	<input type="text"/>	<input type="text" value="0"/>
Recycled (segregated on site or offsite)	<input type="text"/>	<input type="text"/>	<input type="text" value="0"/>
Total	<input type="text" value="0"/>	<input type="text" value="0"/>	100%

6.i According to the data in Table C, has the organization achieved a minimum of 80% **recycling** rate for C&D waste from renovations and new construction?

- Yes
 No

7. Is your facility participating in the **Construction & Demolition Debris Recycling Goal** of the **Less Waste Challenge** of the Healthier Hospitals program?

- Yes
 No

7.a Please describe any progress toward this goal:

Green Building Successes

Please describe any other successes or innovations in the green building program or projects at your facility in the space provided below. Please feel

free to provide commentary and/or attach a file.

8. Success 1: Please describe

9. Please attach any additional documentation (optional):

10. Success 2: Please describe

11. Please attach any additional documentation (optional):
