

Our Commitment to Environmental Sustainability

In an effort to respect and protect Earth's resources, restore environmental quality, practice stewardship, and protect human health, Yakima Valley Memorial Family of Services will:

- Strive to meet or exceed all environmental laws and regulations.

- Support and encourage recycling of materials used within Memorial Family of Services. When possible, purchase products which contain recycled materials and are recyclable or reusable.

- Minimize waste and the use of hazardous materials.

- Ensure that waste is disposed of in a safe and responsible manner.

- Seek out and use renewable resources and pursue conservation of non-renewable resources through careful planning and cost-effective measures as well as use green building design elements when possible.

- Use pollution prevention initiatives to reduce negative environmental impact.

- Offer sustainable food options for our patients, family members, visitors, and employees.

- Use financial resources well and integrate sustainability criteria into our relationship with suppliers to improve their social and environmental performance.

- Actively participate with government, education, business, and the public to encourage environmental values and practices.
