

EARTH DAY EVENT

FREE ELECTRONICS RECYCLING

Bring in your home electronics on Earth Day and we'll get them responsibly recycled, at no cost to you!

When: Friday, April 22, 7 am to 1 pm

Where: In the parking lot of the Colburn Hill office building on Mt. Support Road.

Who: For D-H and Geisel employees only. Sponsored by the D-H Office of Environmental Sustainability.

What to Recycle: Computers, laptops, cell phones, tablets, TV's, monitors, digital picture frames, printers, copiers, keyboards, mice, stereo equipment, hard-drives, DVD/CD players, phones, paper shredders, and fax machines.

Why: Electronics contain toxic materials like heavy metals that can harm both the environment and human health. Heavy metals can cause many health problems including seizures, lung cancer, and kidney damage. For this reason, throwing away electronics with ordinary trash is banned in New Hampshire and Vermont to prevent heavy metals from getting into the water supply. Recycling your electronics at a certified e-cycler ensures your old laptop won't end up in a landfill or another country, causing environmental and health problems for future generations.

VOLUNTEERS NEEDED! Come celebrate Earth Day and help unload cars on the day of the event. If you are interested in volunteering, [click here to sign up](#).
