

Suggested RFP Response Questions on EPA SmartWay Participation

The SmartWay Transport Partnership is a voluntary collaboration between U.S. EPA and the freight industry designed to increase energy efficiency while significantly reducing greenhouse gases and air pollution. SmartWay Transport Partners lead the way towards a cleaner, more efficient transportation future by adopting fuel-saving strategies that increase profits and reduce emissions. The program applies to:

- Shippers – any company that ships or receives items delivered by truck or rail transport
- Carriers – companies that are truck owner operators, private fleets, rail companies, and public for-hire fleets

More information on becoming a SmartWay Transport Partner is available at <http://www3.epa.gov/smartway/> or by calling 734-214-4767.
